

ONE-LOOP04 (ART06064) and ONE-LOOP10 (ART06065) are expansion modules developed for the ONE system to create an additional interface; they allow integration of ONE-500 into a unified system with up to 24/60 zones.

ONE-LOOP modules provide redundant communication so that the system can be monitored and controlled according to EN54 requirements.

Two models are available:

ONE-LOOP04 for a total of up to 4 units and 24 zones.

ONE-LOOP10 for a total of up to 10 units and 60 zones.

ONE-LOOP Key Features:

- Expands the ONE system up to 60 zones
- Redundant cabling in the ring
- Control and monitoring of the entire system
- Simple installation

Technical Data:

Model	ONE-LOOP04 and ONE-LOOP10
Reference	
ONE-LOOP04 (ART06064)	A total of up to 4 devices ONE with together max. 24 zones
ONE-LOOP10 (ART06065)	Total up to 10 devices ONE with together max. 60 zones
Specification	
Description	Expansion module for ONE-500 in mini PCI format
Application area	Setup of redundant system connection as ring
Protocol	RS-485
Cable length	Up to 200m between units; total length max. 800m
Weight	150g
Packing dimensions	120 x 100 x 80 mm (H x W x D)
Shipping weight	250g
